QUESTION 1: TIMED ACCURACY TEST**MARKS: 20****NOTE: / = RED ERRORS = ACCURACY**

BE SURE TO MARK THE SPEED WITH CARE, AS IT MAKES A DIFFERENCE TO THE RESULTS. REMEMBER THAT ONLY ACCURACY IS MARKED.

MARK ACCORDING TO THE ENCLOSED DEPARTMENTAL SCHEDULE.

MARK ACCURACY ERRORS ONLY.

Indicate accuracy errors with a red slash (/).

One or more incorrect characters in a word – 1 error.

Do not penalise incorrect margins.

Do not penalise incorrect line spacing.

Do not penalise incorrect hyphenation.

Do not penalise incorrect upper case/lower case.

Do not penalise incorrect letter spaces.

Do not penalise incorrect justification.

Do not penalise any incorrect display errors.

Do not penalise if a whole line or paragraph is left out and keyed in at another position.

When exactly the same word is repeatedly keyed in incorrectly, it is penalised once only per question. Thereafter it is encircled as a repetitive error.

QUESTION 1: TIMED ACCURACY TEST**CONTINUED**

Omission of words: count the first 5 strokes and thereafter every 10 strokes as 1 error each. If the last few strokes at the end are 5 or more, count as another error. If the last few strokes at the end are less than 5, ignore.

If 50 w.p.m. is not completed, count back as indicated in the memorandum.

The highest mark obtained, will be indicated. The highest speed passed, will be indicated.

Indicate the speed obtained with Pass 50 w.p.m./Pass 55 w.p.m./Fail, where applicable, in the following way:

INDICATE AT THE END OF THE SPEED TEST:

Pass 50 w.p.m./Pass 55 w.p.m./Fail; Errors; Mark

INDICATE ON THE INSIDE BACK/OUTSIDE FRONT OF THE FOLDER COVER, DIRECTLY NEXT TO THE MARK OBTAINED FOR QUESTION 1:

Pass 50 w.p.m./Pass 55 w.p.m./Fail

(If the candidate did not hand in Question 1, indicate by drawing a line through the block for the mark, next to Question 1, on the inside back/outside front of the folder cover and writing "Fail" at the appropriate positions.)

INDICATE ON THE FRONT PAGE OF THE COVER, JUST BELOW THE CIRCLE FOR THE MARKS OBTAINED:

Pass 50 w.p.m./Pass 55 w.p.m./Fail

Should a candidate fail the examination (less than 40 %) and pass the accuracy test, the word "Fail" will replace the "Pass 50 w.p.m./Pass 55 w.p.m.", as a candidate cannot fail the examination paper as a whole and get recognition for the w.p.m.

THIS MARK FOR TYPING TECHNIQUE (200) TOGETHER WITH THE WORD PROCESSING MARK (100) IS ADDED TO OBTAIN A MARK OUT OF 300 WHICH IS PROCESSED TO A MARK OUT OF 100 (PERCENTAGE). THIS MARK MUST BE SENT TO THE NATIONAL DEPARTMENT.

QUESTION 1 - TIMED ACCURACY TEST

Hiking can be a form of low cost, independent international travel. It includes the use of a backpack or other luggage that is easily carried for long distances or long periods, the use of public transport, inexpensive lodging such as a youth hostel, a longer trip when compared with conventional vacations and an interest in meeting the locals as well as seeing the sights.

It is typically associated with young adults who generally have fewer obligations and thus more time to travel. They also have less money to spend on hotels or private vehicles. It may include wilderness adventures or to travel within settled areas.

Hiking has evolved as travellers from different cultures and regions participated. A newspaper said that hikers are a heterogeneous group with respect to diversity and who attach meanings to their travel experiences. They also display a common commitment to a non-institutionalised form of travel which is part of their self-identification as hikers. Hiking as a lifestyle and as a business has grown considerably as a result of low cost airlines and hostels or budget accommodations in many parts of the world.

While many people have travelled through the history with their possessions on their backs, the concept of modern hiking can be traced, at least partially, to the sixties and seventies. In fact, some hikers today seek to recreate that journey, albeit in a more comfortable manner.

While travel along the old routes is complicated due to unrest

QUESTION 1 - TIMED ACCURACY TEST**CONTINUED**

in many countries, hiking has expanded to other regions of the world. At present new trails are being planned to other countries.

Technological developments and improvements have also contributed to changes in hiking. Traditionally hikers did not travel with expensive electronic equipment because of concerns about theft, damage and additional luggage weight. The desire to stay connected, coupled with breakthroughs in lightweight electronics, has given rise to a new trend. Not only is there a shift in what hikers carry now, there is also a change in what they use to carry that gear. Hikers are becoming less and less reliant on the physical hiking in its initial form.

Of importance in hiking is a sense of authenticity. Hiking is perceived as more than a vacation and a means of gaining experience. Hikers want to experience the real destination rather than the packaged version that is often associated with tourism, which has led to the assertion that hikers are against tourism/. _____ **50 w.p.m.**

Hikers are criticised with criticism dating back many years. For example, the host countries and other travellers do not always agree with the actions of hikers. The perception of hikers seems to improve as hiking has become more mainstream./ _____ **55 w.p.m.**
