

SCMS make a car donation to Tshwane South TVET College

On 24 November 2016 Supply Chain Management Systems (SCMS), a project under John Snow Incorporated (JSI), handed over a Chrysler Voyager to Tshwane South TVET College (TSC). The car will be used at Centurion Campus Workshops for student work related purposes. SCMS Finance and Operations Manager Mr J Mokwana handed over the car to Mr B Louw, a Senior Lecturer at Centurion Campus, representing TSC. This initiative has been highly applauded by The College as our Workshop Engineering students are going to benefit immensely from it.
